Bring your own data

Selina Baldauf

Freie Universität Berlin - Theoretical Ecology

October 1, 2025

1

Organization

Schedule of today

- **Now - 14.30**: Work on the data set(s)
  - Take break(s) as best fits your needs
- **14.30 - 15**: Short feedback round
  - What did you find out about your data set? Plots, summaries, …
  - Which methods did you use?
  - Did you learn something new?
  - Was there something you struggled with?
  - …
- **15-16**: Feedback, conclusion

Data set 1: What makes a good wine?

see here

Frederik Vandaele - originally posted to Flickr as Château Pétrus, CC BY 2.0, https://commons.wikimedia.org/w/index.php?curid=5145286

Data set 2: Paralympic games from 1980-2016

see here

Data set 4: Ice cover and temperature

see here

Image by LTER under CC BY-SA 4.0

Source ice data: Magnuson, J.J., S.R. Carpenter, and E.H. Stanley. 2021. North Temperate Lakes LTER: Ice Duration - Madison Lakes Area 1853 - current ver 35. Environmental Data Initiative.

Data set 5: RNAseq data

see [here](#)

```
Error in loadNamespace(x): there is no package called 'downloadthis'
```

New methods: Read multiple files at once

- If you have multiple files with data you can
  - Read them all in at the same time
  - Combine them into one tibble

```
Error in loadNamespace(x): there is no package called 'downloadthis'
```

New methods: Correlation plots

```
Error in loadNamespace(x): there is no package called 'downloadthis'
```

```
Error in library(corrplot): there is no package called
'corrplot'
```

```
Error in corrplot(., type = "lower", order = "hclust",
tl.col = "black", : could not find function "corrplot"
```

```
Error in library(factoextra): there is no package
called 'factoextra'
```

```
Error in corrplot.mixed(., order = "hclust", bg = NA,
tl.pos = "lt"): could not find function
"corrplot.mixed"
```

New methods: PCAS

```
Error in loadNamespace(x): there is no package called 'downloadthis'

Error in fviz_pca(peng.pca, label = "var", habillage = peng_no_na$species, : could not find function "fviz_pca"
```

Some general tips

- First make a plan:

    - What do you want to achieve and what are the steps?

    - Start with something small, e.g. reading in the data and bringing it into the right format.

    - If you want, stop by in general to discuss your plan or write me in the chat

- Google, ask AI tools if you want, look at the function help (?)

    - Hint: Set your RStudio error messages to English:
      `Sys.setenv(LANGUAGE='en')` in the console

- If you get stuck, ask in the chat or stop by in General

Now you

Working with real data

- **Meet** in your group (if you want)

- **Work** on your data set

- **Take breaks** as you need and **be back at 2.30 p.m.**

Sharing

In **1-2 mins**:

- What was the highlight of your analysis?
  - Your favorite plot
  - Some cool code
  - A problem that you finally solved
  - Something new you learned
- What was difficult?
- If you want: Share a screenshot in the chat or share your screen

Feedback

Please take 10 mins to complete the feedback survey for the Graduate center (don't use Internet Explorer)

https://votingo.cedis.fu-berlin.de/PCNLP3

Feedback

- Any other feedback or comments from your side?

Conclusion

We learned a lot of stuff!

Conclusion

How to continue from here?

- Learning by doing!

- Have a look at some online ressoures

- FU statistical consulting for questions regarding statistical methods

- R Consulting by me

- Tools and Tips lecture
